

WeVideo Accessibility Conformance Report

Revised Section 508 Edition

(Based on VPAT® Version 2.5Rev)

Name of Product/Version: WeVideo Version 18.0

Report Date: April 20th, 2026

Product Description: WeVideo is a powerful, easy to use, cloud-based collaborative video creation platform. With over 38 million accounts created to date, WeVideo is the first choice of businesses, consumers, educators and students, as well as being the video backbone for many third-party media solutions. WeVideo can be accessed from any computer or device: at school, home, work or on the go. Users can easily capture, edit, view and share videos for personal, social media, business or learning purposes with secure storage of their content in the cloud.

Contact Information: support@wevideo.com

Accessibility Statement

WeVideo invests in thoroughly reviewing, improving, and monitoring the accessibility of our product. Our technical reviews incorporate accessibility controls for every feature being built. Our testing methodology includes manual testing with screen readers, assistive technologies, and keyboard-only navigation before a feature is considered complete. We evaluate a significant and representative sample of our platform encompassing key user flows, core features, critical UI/UX paths and different content types, as well as a holistic and randomly selected set of pages using an automated pattern detection mechanism. Identified accessibility violations are immediately logged as high-priority defects and scheduled for prompt remediation by product teams, with a maximum remediation timeframe of 120 days. The details below are accurate at the date of this report.

Evaluation Methods Used:

Testing and evaluation is carried out regularly on multiple devices, operating systems and browsers.

At WeVideo, we look at accessibility from two perspectives - the static presentation of content and its dynamic/interactive behavior. Our evaluation methods encompass both of these crucial aspects:

- **Static Accessibility:** ensuring that fixed content, such as static text, images and the overall structure, is perceivable and understandable by all users. Industry-known tools like Axe are commonly used to identify this category of accessibility violations, which can create barriers for users relying on assistive technology. We utilize our own purpose-built, in-house accessibility scanning solution. This system is designed to promptly detect, report, and ensure that our product teams address any WCAG violations in a continuous cycle that repeats with every product iteration. We integrate WAI-ARIA roles, labels, and attributes throughout the development lifecycle, implementing them during code authoring and validating them through accessibility testing, to ensure standards compliance and usability, as well as effective screen reader interpretation.
- **Dynamic / Interactive Accessibility:** ensuring that content which is dynamic, interactive, or real-time - including elements like widgets, dialogs, and status messages - is fully accessible. The core objective is to enhance the overall user experience and journey throughout the product by focusing on creating accessible end-to-end flows and unified user experiences. To thoroughly evaluate dynamic accessibility, our QA engineers utilize widespread screen readers, including NVDA (Windows), VoiceOver (MacOS) and JAWS. Furthermore, they apply WCAG best practices to guarantee a correct and consistent user experience.
- Modern browsers used for testing: Google Chrome, Mozilla Firefox (on both Windows and MacOS platform).

Together, these two concepts ensure comprehensive coverage of accessibility, from the published information itself (static) to the way users interact with it in real time (dynamic).

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.1	Level A (Yes) Level AA (Yes) Level AAA (Yes)
Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018	Yes

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.1 Report

Tables 1 and 2 also document conformance with Revised Section 508:

- Chapter 4 – Not applicable as the product is software-only
- Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing
- Chapter 6 – 602.3 Electronic Support Documentation

Note: When reporting on conformance with the WCAG 2.0 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).

Table 1: Success Criteria, Level A

Notes:

Criteria	Conformance Level	Remarks and Explanations
<p><u>1.1.1 Non-text Content</u> (Level A)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo supports text alternatives for non-text content (e.g., images, icons, media)
<p><u>1.2.1 Audio-only and Video-only (Prerecorded)</u> (Level A)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo allows users to provide text alternatives for audio-only and video-only prerecorded content.
<p><u>1.2.2 Captions (Prerecorded)</u> (Level A)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo allows uploading and generating captions for both interactive and non-interactive videos. For uploaded captions, responsibility for caption accuracy and presence lies with the content author.
<p><u>1.2.3 Audio Description or Media Alternative (Prerecorded)</u> (Level A)</p> <p>Also applies to:</p>	Supports	Superseded by 1.2.5 for Level AA

Criteria	Conformance Level	Remarks and Explanations
Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 		
<u>1.3.1 Info and Relationships</u> (Level A) Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	Semantic structure and relationships (e.g., headings, lists, form labels) are preserved through proper markup and programmatic associations.
<u>1.3.2 Meaningful Sequence</u> (Level A) Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	Meaningful reading and navigation order is preserved through logical DOM structure and layout.
<u>1.3.3 Sensory Characteristics</u> (Level A) Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo presents instructions and content without relying solely on sensory characteristics (e.g., shape, color, size, location).
<u>1.4.1 Use of Color</u> (Level A)	Supports	Information is conveyed without

Criteria	Conformance Level	Remarks and Explanations
Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 		relying solely on color, through text, icons, or patterns.
<u>1.4.2 Audio Control</u> (Level A) Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo provides controls to pause, stop, or adjust volume for audio playback that starts automatically. Audio within video content does not auto-play with sound by default. Users retain control over audio playback during editing and viewing.
<u>2.1.1 Keyboard</u> (Level A) Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo supports keyboard navigation and operation for core functionality, including editing and playback controls.
<u>2.1.2 No Keyboard Trap</u> (Level A) Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo does not trap keyboard focus within any component. Users can navigate into and away from all interactive elements using standard keyboard commands.

Criteria	Conformance Level	Remarks and Explanations
<p><u>2.2.1 Timing Adjustable</u> (Level A)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo does not impose time limits on core user interactions.
<p><u>2.2.2 Pause, Stop, Hide</u> (Level A)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo provides controls to pause or stop moving, blinking, or scrolling content, including video playback.
<p><u>2.3.1 Three Flashes or Below Threshold</u> (Level A)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo does not include content that flashes more than three times per second in its interface. Conformance for user-generated video content depends on content authors avoiding flashing content that exceeds the defined thresholds.
<p><u>2.4.1 Bypass Blocks</u> (Level A)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) – Does not apply to non-web software 	Supports	"Skip to Main Content" link allows user to bypass navigation elements and access the main content area on pages.

Criteria	Conformance Level	Remarks and Explanations
<ul style="list-style-type: none"> ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) – Does not apply to non-web docs 		
<p><u>2.4.2 Page Titled</u> (Level A)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo provides descriptive page titles that identify the purpose of each page or view, helping users understand their location within the application.
<p><u>2.4.3 Focus Order</u> (Level A)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo maintains a logical focus order aligned with the visual interface.
<p><u>2.4.4 Link Purpose (In Context)</u> (Level A)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	Descriptive link text or context is generally used to convey purpose.
<p><u>3.1.1 Language of Page</u> (Level A)</p> <p>Also applies to:</p>	Supports	WeVideo defines the default language programmatically for pages and views.

Criteria	Conformance Level	Remarks and Explanations
Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 		
<u>3.2.1 On Focus</u> (Level A) Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo does not initiate unexpected context changes when elements receive focus.
<u>3.2.2 On Input</u> (Level A) Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo does not trigger unexpected context changes on input without user awareness.
<u>3.3.1 Error Identification</u> (Level A) Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	Form inputs are validated and errors are being promptly conveyed to users.
<u>3.3.2 Labels or Instructions</u> (Level A)	Supports	Each input field is provided with

Criteria	Conformance Level	Remarks and Explanations
Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 		labels or instructions
<u>4.1.1 Parsing</u> (Level A) Also applies to: WCAG 2.0 – Always answer ‘Supports’ Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Not Applicable	WeVideo uses standard-compliant markup to avoid parsing errors. Note: criteria does not apply for WCAG 2.2 (obsolete)
<u>4.1.2 Name, Role, Value</u> (Level A) Also applies to: Revised Section 508 <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo exposes name, role, and value for UI components through accessible APIs.

Table 2: Success Criteria, Level AA

Notes:

Criteria	Conformance Level	Remarks and Explanations
<p><u>1.2.4 Captions (Live)</u> (Level AA)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none">● 501 (Web)(Software)● 504.2 (Authoring Tool)● 602.3 (Support Docs)	Not Applicable	WeVideo does not provide live audio/video functionality.
<p><u>1.2.5 Audio Description (Prerecorded)</u> (Level AA)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none">● 501 (Web)(Software)● 504.2 (Authoring Tool)● 602.3 (Support Docs)	Supports	WeVideo allows inclusion of audio descriptions, both uploaded and auto-generated, for interactive and non-interactive videos. Further conformance depends on content authors.
<p><u>1.4.3 Contrast (Minimum)</u> (Level AA)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none">● 501 (Web)(Software)● 504.2 (Authoring Tool)● 602.3 (Support Docs)	Supports	All UI elements meet minimum contrast requirements.
<p><u>1.4.4 Resize text</u> (Level AA)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none">● 501 (Web)(Software)● 504.2 (Authoring Tool)	Supports	Text can be resized up to 200% without loss of functionality.

Criteria	Conformance Level	Remarks and Explanations
<ul style="list-style-type: none"> ● 602.3 (Support Docs) 		
<p><u>1.4.5 Images of Text</u> (Level AA)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo avoids images of text in UI. User-generated content may include them.
<p><u>2.4.5 Multiple Ways</u> (Level AA)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) – Does not apply to non-web software ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) – Does not apply to non-web docs 	Supports	WeVideo provides multiple navigation methods where applicable. Conformance depends on product area.
<p><u>2.4.6 Headings and Labels</u> (Level AA)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo uses descriptive headings and labels. Conformance depends on content authoring.
<p><u>2.4.7 Focus Visible</u> (Level AA)</p> <p>Also applies to:</p> <p>Revised Section 508</p>	Supports	Keyboard focus indicators are visible for interactive elements.

Criteria	Conformance Level	Remarks and Explanations
<ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 		
<p><u>3.1.2 Language of Parts</u> (Level AA)</p> <p>Also applies to: Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo supports identifying language changes where specified. Conformance depends on content.
<p><u>3.2.3 Consistent Navigation</u> (Level AA)</p> <p>Also applies to: Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) – Does not apply to non-web software ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) – Does not apply to non-web docs 	Supports	Navigation mechanisms are consistent across the product.
<p><u>3.2.4 Consistent Identification</u> (Level AA)</p> <p>Also applies to: Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) – Does not apply to non-web software ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) – Does not apply to non-web 	Supports	UI components are identified consistently across views.

Criteria	Conformance Level	Remarks and Explanations
docs		
<p><u>3.3.3 Error Suggestion</u> (Level AA)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo provides suggestions for correcting errors where applicable.
<p><u>3.3.4 Error Prevention (Legal, Financial, Data)</u> (Level AA)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) 	Supports	WeVideo provides confirmation and review mechanisms where applicable.

Table 3: Success Criteria, Level AAA

Notes: Does not apply.

Revised Section 508 Report

Chapter 3: [Functional Performance Criteria \(FPC\)](#)

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Supports	The product uses standard HTML and WAI-ARIA attributes to describe the identity, operation, and state to assistive technologies.
302.2 With Limited Vision	Supports	The product supports standard browser magnification and contrast adjustments.
302.3 Without Perception of Color	Supports	Color is only used as a decorative attribute of user interface elements. Textual representations are always used as the primary mechanism for conveying information.
302.4 Without Hearing	Supports	The product is compatible with screen readers (NVDA, JAWS, VoiceOver) and is keyboard operable. Key workflows are usable, it provides programmatic structure and does not rely solely on visual cues. Transcripts are available across all product areas. Visual, written instructions and cues are part of guided tours user experience. Text notifications and on-screen indicators are present.

Criteria	Conformance Level	Remarks and Explanations
302.5 With Limited Hearing	Supports	The product is operable with limited hearing. Transcripts are available across all product areas. Visual, written instructions and cues are part of guided tours user experience. Text notifications and on-screen indicators are present. Captions are available for Interactive Videos if desired.
302.6 Without Speech	Supports	The product does not require speech input.
302.7 With Limited Manipulation	Supports	Standard input mechanisms such as keyboards and mice are supported. Usage of the platform does not require fine motor controls or simultaneous manual operations.
302.8 With Limited Reach and Strength	Supports	The product is operable with limited reach and strength.

Chapter 4: [Hardware](#)

Notes: The WeVideo Web application is a software-only application and does not include hardware components.

Chapter 5: [Software](#)

Criteria	Conformance Level	Remarks and Explanations
501.1 Scope – Incorporation of WCAG 2.0 AA	See WCAG 2.x section	See information in WCAG 2.x section
502 Interoperability with Assistive Technology	Heading cell – no response required	Heading cell – no response required
502.2.1 User Control of Accessibility Features	Not Applicable	The product is not considered platform software as defined by Section 508.
502.2.2 No Disruption of Accessibility Features	Supports	The product is compatible with operating system and browser accessibility features configured by the user.
502.3 Accessibility Services	Heading cell – no response required	Heading cell – no response required
502.3.1 Object Information	Supports	WAI-ARIA attributes are used to describe the role, state, and description of user interface elements to assistive technologies.
502.3.2 Modification of Object Information	Supports	Standard HTML or ARIA object roles are used for maximum compatibility with assistive technologies.
502.3.3 Row, Column, and Headers	Supports	Standard HTML attributes are used to define table structure and relationships, including column and

		row headers, to assistive technologies.
502.3.4 Values	Supports	Standard HTML attributes are used for maximum compatibility with assistive technologies.
502.3.5 Modification of Values	Supports	Standard HTML or ARIA attributes are used for maximum compatibility with assistive technologies.
502.3.6 Label Relationships	Supports	Standard HTML and WAI-ARIA attributes are used to describe label relationships of user interface elements to assistive technologies.
502.3.7 Hierarchical Relationships	Supports	Standard HTML markup is used to express hierarchical relationships.
502.3.8 Text	Supports	Strings are rendered as plain text values in HTML for maximum compatibility with assistive technologies.
502.3.9 Modification of Text	Supports	Strings are rendered as plain text values in HTML for maximum compatibility with assistive technologies.
502.3.10 List of Actions	Supports	Standard HTML or ARIA object attributes are used for maximum compatibility with assistive technologies.
502.3.11 Actions on Objects	Supports	Standard HTML or ARIA object attributes are used for maximum compatibility with assistive technologies.
502.3.12 Focus Cursor	Supports	Visual changes to elements are used to indicate the current position of focus
502.3.13 Modification of Focus Cursor	Supports	Standard HTML elements are used with standard cursor controls for user input.
502.3.14 Event Notification	Supports	Standard HTML elements and ARIA object

		attributes are used to announce any events for maximum compatibility with assistive technologies.
502.4 Platform Accessibility Features	Not Applicable	The product is not considered platform software as defined by Section 508.
<u>503 Applications</u>	Heading cell – no response required	Heading cell – no response required
503.2 User Preferences	Supports	User preferences from platform or operating system settings are being taken into account and respected.
503.3 Alternative User Interfaces	Not Applicable	The product does not provide an alternative user interface that functions as assistive technology.
<i>503.4 User Controls for Captions and Audio Description</i>	Heading cell – no response required	Heading cell – no response required
503.4.1 Caption Controls	Partially Supports	The Interactivity Player provides controls for caption selection at the same menu level as the user controls for volume. For Multimedia Creation, captioning controls will be added as per our product roadmap.
503.4.2 Audio Description Controls	Not Applicable	Audio Descriptions support will be added as per our product roadmap.
<u>504 Authoring Tools</u>	Heading cell – no response required	Heading cell – no response required
504.2 Content Creation or Editing (if not authoring tool, enter “not applicable”)	See WCAG 2.x section	See information in WCAG 2.x section
504.2.1 Preservation of Information Provided for Accessibility in Format	Supports	The product preserves original captions and audio information for exported videos, as well as integrity

Conversion		of downloadable captions.
504.2.2 PDF Export	Not Applicable	The product does not support exporting PDF files.
504.3 Prompts	Supports	The product supports creating content that conforms to Level A and Level AA Success Criteria and Conformance Requirements in WCAG 2.0 for features supported by the authoring tool.
504.4 Templates	Partially Supports	The templates, starting blocks and other content blocks support accessibility and do not block authors from creating accessible content. Audio Descriptions support will be added as per our product roadmap.

Chapter 6: [Support Documentation and Services](#)

Notes: Notes: This report covers accessibility conformance for the Interactivity Dashboard and does not discuss Documentation or Support Services.

Legal Disclaimer (Company)

WeVideo is committed to being fully accessible for learners and compliant with all WCAG guidelines. In the case where an aspect of the product does not meet accessibility expectations and is not covered through our officially documented remediation plans, please contact support@wevideo.com and we will handle all concerns with the highest priority.
